language students learn best when given the opportunity to communicate meaningful content in realistic settings see how technology can help

a collection of papers exploring the use of technology merged with curriculum to create a solid integral and adaptive foundation for use in the fields of english as a foreign language and esl

this volume examines the ways schools respond to cultural and linguistic diversity a richness of accumulated experience is portrayed in this study of six australian secondary schools partial success near success or instructive failure as the culture of the school itself was transformed in an attempt to meet the educational needs of its students set in the context of a general historical background to the development of multicultural education in australia a theoretical framework is developed with which to analyze the move from the traditional curriculum of cultural assimilation to the progressivist curriculum of cultural pluralism the book analyzes the limitations of the progressivist model of multicultural education and suggests a new post progressivist model in evidence already in an incipient and as yet tentative self corrective trend in the case study schools

adopting a post structuralist approach in analyzing the euromosaic data about european minority language groups glyn williams argues that different states construct minority language groups and speakers in different ways this leads to an argument about the nature of democracy and how the current changes in governmental discourses accommodate linguistic and cultural diversity

the definitive reference for managing sensorimotor speech disorders bringing together the expertise of leading research practitioners in the field the second edition of clinical management of sensorimotor speech disorders is an up to date reference for the underlying theory and the basic principles of assessment and treatment this book provides a solid foundation in the conceptual framework essential for classifying and differentiating disorders according to clinical categories it covers the theory underlying measurement strategies including acoustic kinematic aerodynamic and electromyographic techniques and guides the reader through treatments for each disorder new in this edition is a comprehensive section with in depth coverage of the diseases syndromes and pathologic conditions which are accompanied by sensorimotor speech disorders these chapters provide concise descriptions of the disease and its signs and symptoms neuropathology epidemiology and etiology each chapter goes on to present the speech impairment associated with the disorder and its signs and symptoms etiology neuropathology associated cognitive linguistic and communicative signs and symptoms special diagnostic considerations treatment and key references features clear articulation of theoretical issues provides a strong foundation for the clinical

management of the dysarthrias apraxia and speech problems secondary to hearing loss new chapter on neurogenic fluency disorders extensive discussion of neuropathologic conditions that cause sensorimotor speech disorders authoritative and comprehensive this expanded edition will prove to be the reference of choice for students in speech language pathology programs as well as clinicians and researchers

mini set I sociology of education re issues 48 volumes originally published between 1928 and 1990 the books in this mini set discuss teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization

the language experience of children developing in linguistically diverse environments is subject to considerable variation both in terms of quantity and quality of language exposure it is an open question how to investigate language exposure patterns and more important which factors are relevant for successful language learning for example children acquiring a minority language including a signed language are exposed to less variety of input than children acquiring a more global language this is because they are living in a smaller linguistic community and with fewer occasions to use the language in everyday life despite this reduced input most native signers are successful language learners in contrast native language competence is not always achieved in signing deaf children with hearing parents or those with cochlear implants learning a spoken language a similar outcome but with very different reasons has also been reported for hearing children with language impairment in these populations acquisition of morphosyntactic aspects is developing atypically ending with an uncomplete linguistic repertoire the circumstances of exposure during language development tend to differ in significant ways with respect to a large number of factors such as i length quality and quantity of input ii social status and attitudes toward the language iii cognitive abilities required for language learning and iv age of first exposure having early exposure to a range of different speakers is important in the acquisition of any language and may affect language proficiency however negative societal attitudes or a cognitive based disadvantage may create an unfavourable learning environment that prevents language learning from surfacing typically this situation inevitably generates a different type of exposure for the child and consequently different language competence in this research topic we intend to encourage the debate on social linguistic and cognitive factors at play for designing an effective environment for language acquisition aiming at integrating linguistic variables coming

from theoretical studies on language with environmental variables such as measures of language input or cognitive abilities on functions ancillary to language development

stardust 1 language is introduced through songs and practised in stories resources include a puppet flashcards wordcards and photocopiable materials a photo documentary provides information about british children and their lives activity books allow you to introduce reading and writing skills stardust 2 and 3 plentiful teacher s material means that every class can be different and exactly tailored to children s needs an imaginative storyline superbartwork and lots of humour stimulate children s creativity comic strip reading texts with activities are a motivating way to recycle new language stardust 4 and 5 extended texts including comic strips photo stories and cross curricular readings provide a rich language input carefully graded reading and writingtasks encourage children to produce a range of short texts a range of evaluation material enables both the teacher and the children to monitor their progress
